

TUESDAY, 28 OCTOBER 2014

09:00-18:00	Global TB Symposium organised by the World Health Organization (WHO) - Room 112
09:00-18:00	IUTB Workshops - Room 211

WEDNESDAY, 29 OCTOBER 2014

09:00-17:00	Post-Graduate Courses - Rooms 113-134	Workshops - Rooms 113-134
09:00-17:00	IUTB Workshops - Room 211	
17:30-19:00	Inaugural Session followed by Award Ceremony - Auditorium Sir John Crofton Memorial Lecture: The role of legislative advocacy for TB and other lung health conditions (Rt Hon. Nick Herbert, UK) Old disease, new ambitions: Zero TB deaths in our lifetime (Dr Aaron Motsoaledi, Minister of Health, South Africa) The role of communities in the management and care of persons living with tuberculosis, HIV and other lung health issues (Ria Grant, South Africa)	
19:00-20:30	Welcome Reception - Banquet Hall, Level 2	

THURSDAY, 30 OCTOBER 2014

Room	112	117	111	113	114	115
08:00-10:00	01. Progress in clinical trials for drug-sensitive TB: 2014 (TB/Bact.)	02. Preparing frontline health workers for community-led change (TB/NAPs)	03. How multi-sectoral approach and community engagement may strengthen programmatic management of TB in prisons (TB)	04. Tuberculosis and diabetes: from evidence to action (TB)	05. Next generation of eHealth for TB: systems that communicate (TB)	06. Empirical treatment for TB among HIV-positive people: who, when, how? Update on trials in progress (HIV)
10:15-11:15	E-Poster no. 1 and Poster Discussion Sessions no. 1 to 22 - Poster Area					
10:15-11:15	TB education and training	TB control in prisons	TB and migration	TB infection control	Global indigenous Stop TB Initiative	Childhood TB
11:30-12:30	Richard Riley Plenary Session 1: WHO's new End TB Strategy 2016-2035 (Mukund Uplekar, Switzerland) New models of lung health and diabetes care for the poor accessing private providers in Asia (Aamir Khan, Pakistan) - Room 112					
12:45-14:15	01. Paediatric and adolescent TB: epidemiology, outcomes and MDR (ACLH)	02. Screening/testing/diagnostics in TB-HIV (HIV)	03. m-Health: expanding the frontiers of TB control (TB)	04. TB in health care workers (TB/NAPs)	05. Tuberculosis epidemiology: predicting the future (TB/Bact.)	06. Developing new regimen for MDR-TB treatment (TB)
14:30-16:30	10. Shortened treatment regimens for MDR-TB: results from the field and future direction (TB)	11. Can we reach the post-2015 WHO global TB targets? (TB)	12. Exploring the intersection between TB and maternal and neonatal health: from research to implementation (TB)	13. Innovations in airborne infection control (TB)	14. Outstanding issues in HIV/AIDS (HIV)	15. Systematic screening for active TB: from guideline to implementation (TB)
17:00-18:30			01. Innovations and models of financing to improve diagnostic services under the East Africa laboratory project CANCELLED	02. Expansion of MDR-/XDR-TB Programmatic management in the Russian Federation (RPODP)	03. Streamlining treatment for drug-resistant TB: market approaches for better TB care (UNITAID)	04. A rights based approach - the key to zero TB and HIV infections CANCELLED

FRIDAY, 31 OCTOBER 2014

08:00-10:00	19. The Union/CDC Late breaker session (TB)	20. Community-driven psychosocial support: don't forget medication counselling! (TB/NAPs)	21. Practical considerations for successful contact tracing and linkage to care in low- and middle-income countries (TB)	22. Countries' experience in decentralising PMDT: community-based MDR-/XDR-TB care (TB)	23. QMS implementation and accreditation of TB laboratories (TB/Bact.)	24. Mathematical approaches to better understand and tackle tuberculosis (TB)
10:15-11:15	E-poster no. 2 and Poster Discussion Sessions no. 23 to 44 - Poster Area					
10:15-11:15		TB/Bacteriology & Immunology	TB/Nurses & Allied Professionals	South East Asia Region	Africa Region	Asia Pacific Region
11:30-12:30	Plenary Session 2: Past and future examples of community engagement (Mark Dybul, Switzerland), Robert Koch Lecture on TB vaccines development (Stefan H E Kaufmann, Germany) - Room 112					
12:45-14:15	11. Drug monitoring and adverse events (TB)	12. Finding cases: how good are our notification systems? (TB)	13. Epidemiology: where is TB? Hotspots, hospitals and the highlands of Mexico (TB)	14. TB control strategies: what is effective? (TB)	15. Lessons learnt from implementing Xpert MTB/RIF (TB/Bact.)	16. The depths of drinking, drugs and depression in TB (TB)
14:30-16:30	28. Adolescent TB, TB-HIV and MDR-TB: addressing a vulnerable population with unique needs using innovative (ACLH)	29. Management of latent tuberculosis infection: from evidence to policy (TB)	30. TB in Europe: MDR-/XDR-TB control and challenges of high risk groups (TB)	31. Implementing «FAST»: a re-focused approach to institutional TB transmission control (TB)	32. Changing the status quo in TB drug and regimen R&D (TB)	33. TB patients: learning from the experience of those personally affected (CS)
16:45-18:15			Tuberculosis section	Adult & Child Lung Health section	HIV section	Tobacco Control section
17:00-18:30						

SATURDAY, 1 NOVEMBER 2014

08:00-9:00		General Assembly				1A. Short course treatment of MDR-TB V Schwoebel / A Trébuq (France)	1B. Measuring the impact of diagnostic testing G Churchyard (USA)
09:15-11:15	37. HIV/TB Late breaker session (HIV/TB)	38. Progress and lessons learnt from national TB prevalence surveys (TB)	39. Engaging communities of special risk groups in conflict affected communities (TB)	40. Tuberculosis infection control and occupational TB among health care workers: a time for action (TB)	41. Moving the next generation of TB diagnostics for drug resistance closer to patients: data sharing (TB/Bact.)		
11:30-12:30	Plenary Session 3: Panel discussion: Community driven solutions: present perspectives and future vision Patrick Nsimba Mata (DR Congo), Edith Garba (Nigeria), Mesake Navugona (Fiji), Oleksandr Kulchenko (Ukraine) - Room 112						
12:45-13:45	E-poster no. 3 and Poster Discussion Sessions no. 45 to 66 - Poster Area						
12:45-13:45	01. The promise of life: initiating treatment in co-infected patients (HIV)	02. Community engagement in TB control (CS)	03. Tuberculosis programmes: from lab to bedside (TB)	04. Paediatric TB, pneumonia and asthma (ACLH)	05. High and low: the search for TB cases (TB)	06. Managing MDR-TB: problems and solutions (TB)	
14:00-16:00	46. Innovative solutions in surveillance of drug-resistant TB: from phenotypic to molecular testing (TB/Bact.)	47. Engaging communities in the fight against TB and HIV (CS)	48. Multi-faceted regional response to tuberculosis in the mining sector in Southern Africa (TB)	49. Developing a roadmap for integration of TB-HIV activities in maternal and child health settings (HIV)	50. Enhancing TB control with structural interventions: from incentives and enablers to social protection (TB)	51. COPD: diagnostic and therapeutic challenges in developing countries (ACLH)	
16:00-17:15	Closing Ceremony - 16:15 - 17:15 - Room 112						
17:15-18:15	Closing Reception - 17:15 - 18:30

116	118/119	120/121	122/123	127	128	212
07. Community engagement and relief of suffering in palliative care (CS)	08. Child pneumonia: innovative solutions for the next generation (ACLH)	09. Integrating community-based tobacco control activities in TB programmes: experience from multiple countries (TC)	(08:00-09:00) Resist TB Annual Meeting			SPANISH TRACK
Best practice for patient-centred care/ Regional mobilisation of Nurses & Allied Professionals	COPD in low- and middle-income countries	Getting research into tobacco control policy at regional and country level	TB, HIV and tobacco	TB and mental health	Countering tobacco industry interference in public health policies	
07. Clearing the smoke: the synergistic role of the FTC and MPOWER (TC)	08. Evaluation of diagnostics, drugs and vaccines (TB/Bact.)	09. TB and diabetes: the new deadly duo (TB)	10. All hands on deck: communication engagement and TB programmes (CS)	(14:00-15:00) Friends of Pakistan		
16. Community as partner: creating successful collaborations in TB control (CS)	17. Community-based approaches to address lung health (ACLH)	18. Non-tuberculous mycobacterial infections: diagnosis and management (TB/Bact.)				
05. Implementing innovation: MDR-TB advancements for adults and children (Otsuka SA)	06. The TREAT TB operational research virtual learning programme (TREAT TB)					

25. Tobacco control, trade and international treaties (TC)	26. Know your epidemic: fundamental to solutions for child TB (ACLH)	27. What practical steps are needed to achieve a patient-centered continuum of care in TB control? (CS)				SPANISH TRACK
North America Region	Europe Region	Middle- East Region	Latin America Region			
17. Prophylactic therapies (HIV)	18. MDR-TB management: new approaches (TB)	19. TB drug treatment regimens/ trials (TB)	20. Best practices in patient adherence and support (TB/NAPs)	(12:45-14:00) Inter-Regional Meeting (closed meeting)		
34. Supervision or support? A debate panel on challenges around DOT and patient-centred care (TB/NAPs)	35. Biosafety for TB laboratories: involving local professional associations in practical sustainable approaches (TB/Bact.)	36. Tobacco, poverty and possible solutions: health promotion funding models (TC)				
07. The pediatric TB drug market: progress and future direction (TB Alliance and UNITAID)	08. The sustainable OR capacity building initiative in Ethiopia, CORE and MORE for TB (USAID- TB CARE I / KNCV Tuberculosis Foundation)	09. Responding to MDR-TB from the ground up: case studies on community-driven solutions (The Lilly MDR-TB Partnership)	(17:30-20:30) TB Infection Control Consultation Meeting			

2. WHO guidelines on LTBI management: challenges and opportunities A Matteelli (Switzerland)	3. MDR-TB treatment in children S Schaaf (South Africa)	4. Indoor air pollution and tuberculosis CY Chiang /H-H Lin (Taiwan)	5. E-cigarettes: existence of evidence? E Latif (UK) / M Wisotzky (USA)			SPANISH TRACK
42. Emerging perspectives in the treatment of paediatric MDR-TB (ACLH)	43. Magic bullet? Data-driven insights on the impact of community workers on case detection and treatment outcomes (TB/NAPs)	44. Zoonotic tuberculosis: a global socio-economic problem (TB/ZTB)	45. Partnerships: working for community-driven impact to ensure quality care for persons affected by TB (CS)			
07. Developing new regimens from treating MDR-TB (TB)	08. Non tuberculosis mycobacteria and identification (TB/Bact.)	09. Drug resistance and drug-resistance surveys (TB/Bact.)	10. Tobacco, TB and cancer: triple threat (TC)			
52. Reaching the unreached through new civil society initiatives integrating community-based TB activities (CS)	53. Non-communicable diseases and tobacco control (TC)	TB education and training materials discussion session	(14:00-15:00) Creating global awareness of Zoonotic TB (15:00-16:00) Zoonotic TB
