

**12. Finding cases: how good are our notification systems?
Friday, 31 October 2014, 12:45-14:15**

Chairs: James Mpunga (Malawi), Lukas Fenner (Switzerland)

Section: Tuberculosis

- OAP-288-31** **Active case finding: a much needed strategy to increase TB case detection in unreached areas**
12:45-12:55 R K Fatima, E Qadeer, Enar Donald, S Gudmund Hinderaker (*Pakistan*)
- OAP-289-31** **How much is TB screening worth?: estimating the value of active case finding for tuberculosis in South Africa, China and India**
12:55-13:05 A Azman, J Golub, D Dowdy (*USA*)
- OAP-290-31** **Tuberculosis incidence among person born in the 22 high-burden countries now living in the United States**
13:05-13:15 P K Moonan, J Oeltmann (*USA*)
- OAP-291-31** **Case notification rate and risk factors for tuberculosis among HIV-infected patients after ART initiation in Myanmar**
13:15-13:25 YN Aung, STT Tun, S K K Zaw, S Hla Myint, A Thida, T Lwin, M Shwe, P Clevenbergh (*Myanmar*)
- OAP-292-31** **Strengthening tuberculosis notification by private health sector: a way forward for improving tuberculosis care, Jharkhand, India**
13:25-13:35 R Pathak, R Dayal, V Ghule, B Gupta, A Sreenivas, K Rade, S Balakrishnan, A Soren (*India*)
- OAP-293-31** **Aetiology of “TB symptoms” amongst people attending for HIV care in South Africa**
13:35-13:45 Y Hanifa, S Toro Silva, F Sahid, A Von Gottberg, N Ndlovu, V Chihota, S Charalambous, A Grant (*UK, South Africa*)
- OAP-294-31** **Finding missing TB patients: impact of a dedicated “cough corner” in a busy out-patient public health setting of Maharashtra, India**
13:45-13:55 S Dapkekar, B Pawar, A Kumar, P Malik, A Sreenivas, N Wilson, A Nikam (*India*)
- OAP-295-31** **Using epidemiologic data and community engagement to address the burden of tuberculosis among foreign-born populations in New York City**
13:55-14:05 S Ahuja, J Sullivan Meissner, L Trieu, M Macaraig, M Alexander, J Burzynski (*USA*)
- 14:05-14:15 Discussion
